

August 8, 2004

Dear Seaby Bess,

We have had several project at our condo, Banbury Hill, over the years. Your company, Staalsen's, has the best organization and most accommodating work crews that I have experienced in my twenty years as a resident. You, as project manager and leader of our balcony reconstruction, have been great. You selected crews of workmen who were polite, well-mannered, honest, friendly and thoughtful of the residents. They answered questions and did all they could to make us more than just satisfied but pleased with having such fine people who were working for us.

Thank you for reminding me there are people who have values and personal integrity. May you continue to live long and well!
