Staalsen **Construction Company, Inc.**

Lawndale Restoration Project

Chicago, IL

Complete renovation of 104 apartments in six buildings. All buildings included new kitchens and baths, repair of stairs and floors, new floor coverings and paint, electrical wiring, devices, fixtures and in-unit breaker panels, new windows and skylights. Additional work included the replacement of old boilers, new roofing and fencing, porch repairs, landscaping and new hot water heat systems in five of the buildings. The construction process included the rolling relocation of existing tenants as cadres of units/buildings were completed.

Completion time: 10 months
