

Truck Lube and Wash

1461 Busse Road, Elk Grove, IL

This project is a pioneering effort in transferring the “10 Minute Oil Change” concept from cars to heavy diesel trucks and tractors. The building includes three oil change bays with underground pits, one automatic truck wash bay, parking for 18 wheelers to drop their trailers while being serviced, offices, washrooms, break-room and waiting area.

Project included all site work, paving and landscaping.
